

KERRIMUIR CANADIAN BALANCED

Kerrimuir Canadian Balanced is a Canadian diversified portfolio designed using a fundamental, value-oriented investment approach that aims to reduce market volatility and to provide a steady rate of return. Equity research is provided by CPMS - Morningstar and an allocation in small caps are added designed to provide the potential for long-term growth. The fixed-income portion is intended to offer the potential for defense against market uncertainty while serving as a key source for portfolio re-balancing that can be used during downturns to exploit potentially lower equity valuations.

Investment Strategy

A bottom-up approach is taken to construct this portfolio. Equities are chosen on a global basis and coupled with the stability of fixed-income positions. Risk is further managed through extensive diversification across many industries, countries and currencies.

Kerrimuir has access to leading investment research firms Morningstar CPMS and Sustainalytics Inc. to analyze individual securities and identify a concentrated group of companies that possess a combination of attractive valuations and safety metrics.

The Significance of Kerrimuir

Kerrimuir represents the intersection of legacy, stability, strong values and a deep-rooted connection to nature and the environment. The name also relates to the historic Muskoka - Lake of Bays countryside where Rob's family has been part of the community as way back as 1879.

Why Invest

- **Core holding** - The simplicity and convenience of a single-decision solution that focuses on a disciplined strategic asset allocation strategy that can nimbly capitalize on changing market conditions
- **Active + Passive** - portfolio management with a high-conviction of individual stocks and strategic ETFs for greater levels of diversification at a lower cost
- **Rules-based investment decisions -** Disciplined, clearly defined criteria for entering and exiting positions helps to ensure fact-based investment decisions, removing emotion from the equation
