

KERRIMUIR GLOBAL TACTICAL INDEX

Kerrimuir Global Tactical Index is a globally diversified portfolio focusing on investing in market index ETFs. Equity research is provided by CPMS - Morningstar. Commodities are added to the portfolio to add a level of diversification and to offer a potential hedge against long term inflation. Alternatives are added to the portfolio to add another level of diversification and to provide potential defense against market uncertainty.

Investment Strategy

The investment portfolio focuses on Market Index ETF's which are selected on a global basis. An asset allocation strategy is chosen based on a long - term investment time horizon. The current asset allocation structure include, but not limited to, US large cap equities, US mid-cap equities, US small-cap equities, Canadian equities, International equities, Emerging Markets equities, Commodities and Alternatives.

Kerrimuir has access to leading investment research firms Morningstar CPMS and Sustainalytics Inc. to analyze optimal equity portfolios.

The Significance of Kerrimuir

Kerrimuir represents the intersection of legacy, stability, strong values and a deep-rooted connection to nature and the environment. The name also relates to the historic Muskoka - Lake of Bays countryside where Rob's family has been part of the community as way back as 1879.

Why Invest

- **Core holding -** The simplicity and convenience of a single-decision solution that focuses on market Index ETF's. A disciplined strategic asset allocation strategy that can nimbly capitalize on changing market conditions
- **Diversification -** asset allocation focus targeting an optimal portfolio of market Index ETF's. A transparent investment solution to build and monitor a growth focused equity portfolio at a lower cost.
- **Rules-based investment decisions -** Disciplined, clearly defined criteria for entering and exiting positions helps to ensure fact-based investment decisions, removing emotion from the equation
